

THE THEOSOPHICAL SOCIETY TASMANIA

Weekend Seminar, Launceston

“The Illumined Mind – Its Nature and Awakening”

21 – 23 April, 2017

At the Emmanuel Centre
123 Abbot Street, Launceston

Presented by

International Theosophical Speaker

PABLO SENDER

In different spiritual traditions the mind has been described both as an aid and a hindrance in the search for Truth. It is clear that when the mind is conditioned by past experiences, prejudices and wrong views, it can lead us astray. However, there is also a state in which the mind is illumined by the spiritual wisdom latent in all human beings.

This seminar will explore the philosophical foundations of the subject as well as some practices of self-knowledge and meditation that stimulate awakening of an “illumined mind”.

Pablo Sender, PhD, is a Microbiologist and has a doctorate in Biological Sciences. He joined the Theosophical Society in 1996 in Argentina, where he became an active member as well as a member of the National Council. He has worked at the International Headquarters of the Theosophical Society in Adyar, India and currently works at the National Centre of the TS in America. He has presented theosophical lectures, seminars and classes in India, Europe and several countries in the three Americas, as well as publishing two books in Spanish and a number of articles in both Spanish and English in various theosophical journals.

ACCOMMODATION IS LIMITED – EARLY BOOKINGS ESSENTIAL
